WEEKLY REVIEW.

PORTLAND, June 11, 1869

Gold in New York on the 9th, 139¼.

Legal Tenders at San Francisco, 72c.

At New York, 5-20s of 1862, 122¼; 5-20s of 1867, 119¼.

New York wheat market, weak at $1 63@$1,70; flour dull and nominal at former quotations.

Liverpool—wheat, 9s 6d—an advance of 1d.

San Francisco—June 9th—flour, about 2,500 Oregon came down last evening by the *Continental*. The market is apparently moderate. Oregon brands of extra $4 62½@5 12½. Wheat—shipping, $1 55, milling, $1 55@1 62; market favors the buyer. Extremes at $1 40 to 1 65 for ordinary to choice. Barley—dull at $4 15@1 30 for feed and $1 30@1 40 *for brewing*. Oats—sales of 300 sks Oregon at $1 75, quotable at $1 70@1 75, and California at $1 40@1 70.

By the *Alaska* from Honolulu we have advices to the 5th May. From the *Commercial Advertiser* we clip the following:

By the ship *Lorenzo*, 19 days from Yokohama, we have late advices from that port. Several whale ships were there at the time the *Lorenzo* left, some of which had taken oil since leaving this port. From a letter, dated April 8th, received by M[illegible] Hackfeld & Co., from Capt. Loveland, we gather the following:

Josephine had taken 150 bbls. sperm oil since leaving Honolulu; *Wilhelm I*, 110; *Massachusetts*, 50; *Wm. Rotch*, 90; *Florida*, 40; *Eagle*, Honolulu, 25.

The *Wm. Rotch* was repairing damages received in a heavy gale off Japan.

A letter from Captain Lawrence advises us that his ship, the *Ohio*, had 125 bbls. sperm, and the *Julian* was seen boiling down, but no report. He writes that the bark *Eagle* had been ashore on Strong's Island, was leaking some, and would require repairs.

The *Comet* arrived on the 3d and the *Cambridge* on the 8th; with cargoes from San Francisco. They are both advertised to return immediately, full cargoes being in store for them, and will leave week.

The *Alaska* brings the following consignments: To Allen & Lewis, 1,321 kegs sugar; Knapp, Burkell & Co 40 kegs sugar, 25 bags Kona coffee; McCraken, Merrill & Co., 300 bags Kona coffee, 40 bales pulu, and 762 kegs sugar.

Portland Produce Market—dull, with slight changes in prices, as follows: Dried apples in full supply and ½c lower. Extra white wheat, advanced to 67c per bushel; inferior grades, 62½ to 65c. Corn meal, 50c to $1 lower per 100 lbs. Ground feed—market full and $25 per ton outside price. Dried peaches, dull at 8½c. Bacon is weaker, bringing not more than 11c for choice sides. Hams, ditto, selling at 12½@13c. Lard, not much wanted at 15@15½c in tins, and 13½@14c in wood. Eggs are worth 25@27 per dozen. Beans, 6@7c. Wool has advanced under good demand, to 22@23c for combing grades. The above are buying prices. All articles, jobbing at figures a shade higher.

Merchandise Market—Groceries, fair trade during the week. Dry goods little improved. Other lines about as at last report. Merchants are being relieved somewhat by payments of bills sold to the interior, three, six and nine months ago.

Important Facts!!!

THE CAPITAL STOCK

—OF—

THE PACIFIC

MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA,

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from their knowledge whether the affairs of the Company are likely to be properly and safely administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies on future Dividends.

No pe[illegible] or extra rates required for traveling East or in Europe.

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the proportion of Premiums received; or pay the [illegible] value in cash.

The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, [illegible] is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent., compounded annually for ten years, is $6,952,167 27; here at 12 per cent. for four years, and 10 per cent. for [illegible] years, compounded monthly, $25,690,906 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant [illegible] not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH.

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhœa or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, *such as Small Pox and Ship Fever*, treated in the Institution.

We have a separate Medical Department for Ladies which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies' Hygienic Society the first Wednesday in each month.

From Samuel Cassidy, Editor Journal & Argus.

PETALUMA, CALIFORNIA, Dec. 14, 1868.

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check my [illegible] habit. Hearing of Orton's Preparation for d[illegible] the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not [illegible] yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. To take Preparation is not more difficult or unpleasant to take than to commence chewing gum. I [illegible] believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.

SAMUEL CASSIDY.

The Daily Oregonian.

SATURDAY MORNING, JUNE 12 1869

TRAVELING AGENT.

CAPT. WM BARLOW will travel through the Willamette Valley during the summer, and is authorized to solicit subscriptions for the DAILY and WEEKLY OREGONIAN.

he "Mercenary Brigade" of Washington Territory.

That the Federal office-holders in Washingon Territory, with one or two exceptions, enered into a conspiracy with the Democrats to lefeat the Republican party in the late elecion, is a fact susceptible of the clearest proof. The parties to this conspiracy were Governor Flanders, Judge Dennison, Collector Wilson, Deputy Collector Barnard, Assessor Howe, Marshal Ritz, and some others who hold subordinate positions. They operated in connection with A. A. Denny, late delegate to Congress, and other played out politicians; they visited many places in the Territory for the purpose of organizing a movement that would defeat the Republican party, and dispatched agents and letters in every direction to do their perfidious work. Since the election took place facts have come into our possession which fully substantiate all this, and prove that these men, who owe their positions to the Republican party, preferred a Democratic triumph to the success of the candidate to whom the Republican party in its recent Convention gave a unanimous nomination. Having secured official positions, they consider that they own the Republican party in Washington Territory, and because the party did not submit to their dictation in the choice of a candidate, they showed their devotion to its principles by endeavoring to defeat it.

Their pretence was that Mr. Garfielde's record as a Union man did not entitle him to the support of the party, and that he secured his nomination against the will of the party by fraudulent means. The first of these charges is a beautiful one to be set up by a class of men, some of whom were original secessionists and others of whom were Johnsonized politicians. Mr. Garfielde's record may not be in all respects what we would have it, as that of many other men who have for years acted with the Republican party may be open to objections for what they did in times long gone by; but the man who now supports the [illegible] of the party and who has steadily given them his support for years, is certainly a better man for Republicans to vote for than one who stands on such a platform as the Democrats of Washington Territory lately [illegible] who makes such speeches as Governor Moore made in the late canvass. Besides, the Republican party is competent to judge for itself the record of a man who asks a nomination at its hands; and when such candidate receives a unanimous nomination, it is proof enough that the party thinks he will do. The pretext that Mr. Garfielde obtained his nomination by fraud is completely and triumphantly refuted by the splendid gains he has made everywhere except in Walla Walla, where the Democrats organized a colossal swindle which would melt away at once before the light of an impartial examination.

Four years ago the [illegible] of Washington Territory nominated a man named Denny for Congress. He hadn't ability to make a canvass [illegible] and was obliged to get Mr. Garfielde to do it for him. The [illegible] of Mr. Denny's Congressional [illegible] of economy which enabled him to live at Washington City on crackers and cheese for two dollars and a half a week and hoard every cent of his pay and mileage to build a little saw-mill on the Sound. That was his only achievement. Two years ago a man named Flanders was nominated. He also was obliged to call on Garfielde to make the canvass for him. Flanders represented the Territory by managing to get himself arrested for debt, and giving his constituents wide notoriety as a people who had sent a Harold Skimpole to Congress. Flanders' fame rests entirely on the [illegible] thus acquired; and we may add here that he owes enough in Portland, which he apparently don't intend to pay, to keep him in jail for the rest of his natural life, if he ever ventures within the jurisdiction of Oregon, which he probably will never do. These two ex-Delegates to Congress, for whom Mr. Garfielde stumped the Territory, and whose election he was largely instrumental in securing, rewarded him by conspiring with the Democrats to defeat him in the late election. Mr. Garfielde was a good enough Union man when he was canvassing the Territory for them and trying to make their insignificance respectable in the estimation of the people; but when he became a candidate himself, his record was too bad for them to support him!

As a specimen of the means employed by the clique of Federal officials to defeat the Republican party, we give publicity to the following letter from the Port Townsend Custom House. The letter when received at Walla Walla bore the postmark of Portland, and was undoubtedly forwarded through a Copperhead agent here:

CUSTOM HOUSE, PORT TOWNSEND, }
May 21st, 1869. }

Dr. D. S. Baker and others, Walla Walla

GENTLEMEN: I have just returned from a trip to Olympia in company with Judge Dennison. The disaffection among the ranks in view of the nomination of Garfielde is wide spread. From those competent to judge I was informed that between forty and fifty Republican votes in Thurston county will be lost to Garfielde. I will not say they will be given to Moore. The spirit exists down the Sound. It is enough to mention such names as Marshall Blinn, George A. Meigs, A. A. Denny and S. O. Whitmore to judge how extensive is the movement. Moore is well received, takes broad, catholic ground on which many Republicans have no hesitancy in declaring they are able to stand. I know the better part of our party are opposed to the *building up and perpetuation of a personal dynasty.*

In haste.

W. E. BARNARD,
Deputy Collector.

P. S.—Were it thought polite there would be an open declaration of opposition to the present candidate, but under the circumstances the quiet, individual work may best accomplish the end desired.

W. E. B.

Isn't this a beautiful document to come from a man who professes Republican principles? Not satisfied with doing all they could by personal effort at home to defeat the Republican party, this official clique dispatched letters to distant parts of the Territory to create disaffection and make the disaster complete. Barnard says, "Moore takes broad, catholic ground on which many Republicans declare they are able to stand." What sort of a Republican is he who would vote for a candidate standing on such a platform as the Democrats made at Vancouver? What sort of Republican is he who would vote for a man who denounced, as Gov. Moore did, all the measures of the Republican party and all the acts of President Grant's Administration? What sort of Republican is he who would vote for the candidate of a party which accepts Ben Hayden as a leading exponent of its principles and applauds his infamous speeches? When Mr. Barnard speaks of "our party" he surely means the Democracy. These men would not support the Republican candidate because they did not believe in "building up a personal dynasty." Here we have a revelation of their motives. The trouble with them is their fear that they will lose their places at the public crib. Their patriotism and party fealty are subordinate to their desire to retain office. What a terrible blow it would be if Garfielde were elected and they should lose their positions! A "personal dynasty" in that event would be a public calamity.

Mr. Garfielde, however, did not lose "forty or fifty votes in Thurston county," or in any other county in the Territory His majority in Thurston is nearly three times as large as that received by Flanders two years ago, and his gains generally on the Sound are in the same proportion. He lost the votes of the official clique, it is true, but they are not the Republican party of Washington Territory. It is said that Judge Dennison and Collector Wilson voted for Blinn, the Councilman from Kitsap, for Delegate to Congress; that Blinn voted for P. D. Moore, and that Assessor Howe on election day was in Island county, working for the Democracy. Marshal Ritz was in this city on the day of the election, and refused to go across the river to vote. He evidently came here to dodge it. We put these things on record to show the perfidious conduct of men who, professing to be Republicans and owing their advancement to the party, have proved their readiness to defeat the party to subserve personal and selfish ends. They may rely upon it that such conduct will not be forgotten. And they will find, further, that it will in good time meet with the reward it deserves.

In General

The Sacramento *Union* well says that we mean to treat all who come to this country "for travel or residence," with the decency we have promised them by treaty, and which is for our interest; and in so doing we do not mean to confess to any such dastard fears of being ourselves overrun and controlled by Asiatics, as Democratic demagogues express in whining cant that should make an Anglo-Saxon blush.

The only change we have to note in the aspect of the Washington Territory election is the reported reduction of the Democratic majority in Walla Walla county. A telegraphic dispatch from Judge Wyche was received in this city yesterday stating that the official majority in Walla Walla is 355. This would make Garfielde's majority so far as heard from about 125. We are quite confident of his election.

The captain of the ship *National Eagle*, just arrived at San Francisco from Hong Kong, reports that when making Smith's Island, one of the group south of Yeddo, in the Gulf of Japan, he saw a large column of smoke rising out of the water, which proved to be a volcano and an island just rising out of the ocean. The pile of rocks was 560 feet high. A streak of muddy water around it was five miles in extent. He passed between Smith's Island and the new land; when abreast of the volcano it was fearfully sending up smoke and steam one hundred feet high. The rock appeared to be very hot; as the surf broke upon it, a heavy column of steam would shoot up.

On election day at Walla Walla, a colored man came up to offer his vote, and was about to give it for Gov. Moore and in favor of a white man's government. The Democratic challengers, however, did not know how he was going to vote, and a great hubbub was raised in order to drive him away. The "nigger" was incensed at such treatment from his political friends, and went off in high dudgeon, without voting. But it was soon found out that he would have voted the "white man's ticket" had he been let alone; whereupon some of the prominent Democratic politicians got a carriage and drove off to bring him back to the polls. But the "nigger" now stood on his dignity and wouldn't go! He informed them that he was an American citizen and thorough-bred Democratic gentleman who couldn't be trifled with. So Moore lost a vote that otherwise would have been thrown against the principle of "nigger equality."

OREGON.

J. D. Fay will deliver the oration on the Fourth at Jacksonville.

The crops in all parts of Rogue River Valley will be lighter than last year.

The plum crop in Jackson county has failed. The leaves have curled up and the fruit has dropped from the trees.

A Jackson county paper observes that A. D. Helman, of Ashland, is up with the times. He has sons named Lincoln, Butler, Grant and Colfax, the latter having come into this mundane sphere since inauguration.

The Jacksonville *Sentinel* learns that an attempt was made on the 19th ult., to burn the store of Geo. Nourse, sutler at Ft. Klamath. About the same time in the night, the stable belonging to Mr. Nourse was fired and totally destroyed. Two horses belonging to some Eugene City men, were burned. A soldier who had been refused whisky is suspected.

The subscribers of the Ashland Academy met at Ashland on Tuesday last, says the *Sentinel*, and decided on a site for the building near Mr. Thornton's, on the north side of the town. A building committee consisting of A. G. Rockfellow, J. W. Kuykendall, J. M. McCall, J. P. Walker and J. H. Russell, was chosen. A sufficient amount has been subscribed to warrant the commencement of the building at once, and steps have been taken to procure material, and otherwise inaugurate operations.

General Henry Wilson has published in the New York *Independent* a long and able vindication of Grant's Administration thus far. He admits that some appointments have been made that "were not fit to be made," and that the President has made several mistakes; but he thinks that this arose from honest errors of judgment, or from false representations made to him by friends and advisers. The General then adds:

> In spite, however, of the mistakes, for which the President is not alone responsible, the new appointments have been, as a whole, marked improvements. Four fifths of the appointees are abler and purer men than the men whose places they take. No man at all acquainted with the public men of the country—no man who has any knowledge of the men removed or of the men appointed—can doubt the correctness of this declaration.

The Democratic party of Wisconsin, though not large enough to have much influence in State affairs, is large enough to quarrel. Just now there seems to be a bitter feud which does not promise well for the growth of the party. One section of it, too important to be disregarded, refuses to be managed by the present leaders of the party. The Appleton *Crescent*, which is the most outspoken of the papers in its opposition to the "Madison regency," declares that if the State committee refuses to call an early State convention it will publish a call for such an assembly, and it claims that the summons will be responded to enthusiastically from all parts of the State. It remains to be seen whether the "regency" will heed this threat.

At a late printers' festival the following toast was presented: The Printer—the master of all trades; he beats the farmer with the Hoe, the carpenter with his rules, and the mason with setting up tall columns; he surpasses the lawyer and the doctor in attending to his cases, and he beats the parson in the management of the devil.

LAST NIGHT'S DISPATCHES.

Railroad Accident.

BALTIMORE, June 10.—Last night the train for New York with the President and party aboard, met with a serious accident near Annapolis Junction. Many rumors prevail, but the following account furnished by officers of the road is true The train was proceeding at the usual speed, entering a cut. The train struck a cow throwing her from the track against the bank, the engine, baggage and mail cars passing safely, when the cow rolled under the wheels of the smoking car and the train stopped about one hundred yards from where the cow struck. The smoking car was filled with passengers and was thrown off the track and completely wrecked and crushed. The 2d passenger car mounted the smoking car and rested on it at right angles. This was badly damaged but not broken up. The next car ran on the wreck and into it a few feet. It was considerably damaged. The only persons injured were on the first two passenger cars. The number is stated at eight. Of these Samuel Weild, a German of Atlanta, is the only one seriously hurt. He was very badly bruised about the face and head, and will probably lose one eye. The other seven were more or less bruised. Col. C. Wells, of Albany, was somewhat injured, but is able to keep on his journey home. Evans, of Alexandria, was brought here and carried home to Alexandria. The train also brought in one man from Georgia slightly injured. One colored woman's head was badly cut, and three colored men were bruised. G. W. Knapp, of this city received a scalp wound. Much solicitude is felt as to the safety of the President and party. Some of the passengers proceeding to the rear car are asserted to have found the President smoking on the platform and not aware of the extent of the danger. The brakeman on the train had his left leg broken. The darkness of night added to the horrors of the situation, as it prevented the uninjured passengers from seeing the full extent of the disaster. The embankment at the point of the accident was 20 feet high

New York News.

NEW YORK, June 11.—The North German bark *H. Berrard*, from Bremen, with 380 emigrants, arrived this evening with twenty cases of small pox on board. There were four deaths during the passage.

All commanders of posts and others interested, are requested to forward reports of the ceremonies in their localities, concerning all the facts possible, to the editor, Col R. J Hinton, Headquarters Army of the Republic.

The *Methodist* has returns from forty churches showing a vote of 15,522 for, and 167 against lay delegation.

The soldiers' graves at Bath, Me., were decorated yesterday.

The one hundred and fifteenth anniversary of the settlement of Londonderry, N. H., was celebrated yesterday. Ten thousand persons were present.

Political Matters.

The Philadelphia *Post*, the semi-official organ of Governor Geary, contains a special dispatch from Washington to-day, which says within 30 days Gov. Geary will supercede Mr. Borie as Secretary of the Navy. It further says that the arrangement was made while the Governor was here a day or two ago, and that during a long interview with the President the Secretaryship was tendered and accepted.

CHICAGO, June 11.—It is stated that W. H. Robertson, of Washington, and John Tyler, of Virginia, propose between them that the conservative men of the South select their Senators and Representatives from patriotic statesmen living in the Northern States and thus throw overboard the vallainous carpet baggers and false, perfidious, treacherous scallawags. They contend that one day's prior residence in the State to be represented will meet the requirements of the Constitution as to qualifications.

CHICAGO, June 11.—The Iowa State Republican Convention met at Des Moines yesterday. Governor Merrill was nominated for Governor by acclamation. For Lieutenant Governor, L. W. Ross, of Pottawattamie, M. M. Waldron, of Oppanoose and John A. Parvier, of Muscatine, were severally put in nomination. An informal ballot was taken, but before the result was announced several counties changed their votes. M. M. Waldron, was nominated by acclamation. Judge Dymon was renominated by acclamation for Supreme Judge. A. S. Kissal was renominated by acclamation for Superintendent of Public Instruction. A communication was read, signed by a number of gentlemen, asking for the adoption of stringent prohibitory resolutions. Attending the convention was a negro delegate from Muscatine, who was received with loud applause

The resolutions endorse the administration of Governor Merrill as wise, economical and honest, insists on the maintenance of honesty and economy in all departments of the State Government, that the funds now in the State Treasury and those hereafter available, should be used for defraying the necessary expenses of the Government, economically administered and for no other purpose. No State taxes or only the minimum absolutely required, should be levied or collected till such means are exhausted. The resolutions also endorse the administration of President Grant, endorse and approve Secretary Boutwell's policy and congratulate Iowa on being the first State, since the rebellion, to incorporate in its State Constitution the great principle of impartial suffrage.

Southern States.

MONTGOMERY, Ala., June 11—The Haynesville *Examiner* to day reports that the dread bott worm has made its appearance on a plantation in Loundes county, carrying destruction to the cotton crop.

JACKSON, Miss., June 11.—The trial of E M Yerger, for killing Col Crane, commenced to day before a Military Commission, Brevet Brigadier General R. S. Granger, President. The counsel for Yerger filed an objection to the trial by military commission, which will be argued to-morrow. Yerger pleaded not guilty to the charges and specifications. Eminent counsel are engaged in the defense.

Cuban Affairs.

CHICAGO, June 11.—A *Republican* Washington special says it is understood here that the question has already been raised in regard to Cuba, whether, since the virtual deposition of General Dulce by the Spanish volunteers, there be any Colonial Government with which our Consul or agents there, or the authorities here, can hold official relations. The Spanish Minister is known to be very much troubled about the turn of affairs. Espinar being only the creature of a mob, the point is made as to whether he should be recognized The Cuban agents are not slow to take advantage of this. They are urgent in pressing upon prominent persons here that no government now exists in Cuba but that of the Republic

It has been ascertained from other sources than Cuban that at a rough estimate they have obtained recruits in the United States, Mexico and South American Republics, to the number of five thousand men. They have been furnished with experienced officers from the United States to command the entire number, from Colonel to subaltern. Also, that the aid thus derived from the countries named is slight compared with the assistance furnished in the line of subsistence, clothing, ammunition and arms So great is the activity of the Cubans now in this country, and so confident are they of speedy success, that no efforts are now made to furnish special information, as was formerly the case, to those in this city who have been in active support of their cause.

Call to Irishmen.

PHILADELPHIA, June 10.—John Moriarty, President of the Irish Republican Association of Pennsylvania, has issued an address calling on all Irishmen in the State who favor universal suffrage and protection of American industry and the liberation of Ireland to meet in each congressional district and elect one delegate and one alternate to attend the Irish Republican Convention at Chicago on the 4th of July. The address states that the position taken by Sumner deserves the support of all true Irishmen.

Horrible Murder.

ALBANY, June 10.—Monday night last, at Johnson, Montgomery county, Michael Fannagan assaulted his wife with a hatchet and literally cut her head in pieces. He was arrested.

Georgia Affairs.

NEW YORK, June 10.—An Atlanta dispatch says that Sheriff Norris effected the arrest of eight persons implicated in the late murder. Robert Toombs defends the prisoners in court. Eight negroes holding office in Georgia are before the Supreme Court. The parties arrested in Warrenton by the military have been released by the court on giving bonds. Judge Andrews, of the Circuit Court, has forbidden the Sheriff, at whose instance the arrests were made, to order or in any way assume the functions of the office. Quiet has been restored, and good feeling exists between citizens and the military.

The Cuban War

HAVANA, June 10.—News from Santiago de Cuba is to the 4th inst. All the regular troops had left for service in the field. The volunteers were guarding the city. The fillibusters who landed in the bay of Nipe have gone into the interior, taking the road to Holgum. It was reported that Col. Finks, who commanded the fillibusters brought over by the steamer *San Salvador*, had been killed. The arrival of Gen. Lesca at Cienfugos has infused spirit into the camps again in that section, and several engagements are already reported between his forces and those of the insurgents. A committee of citizens of Havana will go to Porto Rico and meet Gen. DeRoda, who sails to day from Madrid, and escort him to this city. Further grinding of sugar cane has been suspended on account of rain. Sugar is quiet.

Miscellaneous.

NEW YORK, June 10.—The President and party arrived here and left for West Point this morning.

A Long Island railroad train with about one hundred delegates from the Baptist Convention at Green Point, was thrown off the track yesterday afternoon. No lives were lost, but several persons were badly bruised.

Huntington, of the Central Pacific railroad, started this afternoon on a sleeping car from Jersey City. He intends to go all the way to the Pacific coast, and has on board Marshall of the House Committee on Ways and Means. Other members of the committee are to be taken on at Pittsburg and Chicago. Several ladies will also accompany the party.

Letters from Baltic ports contain important news. The Russian Government has entered the grain markets of Germany as a purchaser of cereals.

At Jerome Park races the Hopeful stake for two year olds, five furlongs, was won by Nellie James, in 1:48. The ladies stakes for filleys, one year old, one mile and five furlongs, was won by Hasmania, in 10:7½.

President Grant, who went to West Point by boat this afternoon, says the entire family escaped injury at the accident last evening. He was in the third car. His party were thrown into confusion, but sustained no injury whatever. He describes the accident as a very serious one.

BY ATLANTIC CABLE.

LONDON, June 9.—The election riots at Montmartre were more serious than the first dispatch from Paris to day represented. Troops were called out and were obliged to use the bayonet in dispersing the mob. Many of the rioters were wounded, and a large number was arrested. At last advices order had been restored and the city was quiet. A telegram from Paris to-night states that large tumultuous crowds assembled again in Montmartre district to-day and troops were called out to quell the disturbance.

PARIS, June 9.—The Marquis de Lavalette, Minister of Foreign Affairs, at his official reception to day thanked the Prussian Charge d'Affaire for the favorable tone of the Berlin journals in regard to the election in France.

PARIS, June 9.—The Emperor has issued a decree convening the Corps Legislatif on the 28th inst.

VIENNA, June 9.—Cardinal Ranscheo and the Archbishop at Vienna have intervened to protect the Bishop of Lyne from secular power, but the ministry assert that they are unable to interfere with the course of justice. In consequence of this affair a coldness is manifesting itself in the relations between the Cardinal and the imperial government.

LIMBERG, June 10.—A ministerial order has been promulgated authorizing the use of the Polish language in the administration in the internal service at Gallicia.

MADRID, June 10.—Gen. Roda will sail for Havana to morrow, on the steamer *San Antonia*. He will stop at Porto Rica on his way to Cuba.

Want of harmony in the present Ministry is becoming more and more apparent, and a charge is expected.

LONDON, June 10.—Telegrams from Paris report that the crowds in the Mont Martre district yesterday dispersed on the appearance of the military, without offering any resistance. No damage done beyond breaking some windows. The men most prominent in creating the disturbance were arrested.

The Duke De Persigney has written a letter to the Emperor of France, advising the introduction of further liberal reforms.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

THE MAMMOTH OX!

TO THE PEOPLE OF OREGON: LOOK TO YOUR INTERESTS!

F. M. MORRIS AND W. O. AVERY,

BOTH OLD OREGONIANS AND HAVING, NO doubt,

THE LARGEST OX IN THE WORLD!

proposes to the people of Oregon to take this Monster OX to the Atlantic States and exhibit the same as an Oregon production; and before leaving the State they wish every man, woman and child to see

Mt. Hood upon Legs!

and in order to give them an opportunity, they will exhibit him in the principal towns on the Willamette, for the sum of 25 cents, children half price. Their object in doing this is to raise the necessary cash to pay transportation. All those who think it would have a tendency to wake up the people of the Eastern States to realize the fact that there is such a place as Oregon on the Pacific Slope, and that not only large cattle but every thing else is far in advance of the rest of the world, and that all that is required is industry and economy to realize a fortune in Oregon in a few years at most—and the best place to enjoy life after you have accumulated a fortune.

Business men—make a note of this and remember—MONEY MAKES THE OX GO, and patronize accordingly.

The MAMMOTH OX has been removed to the corner of Morrison and Third streets, where he can be seen through the day and until 10 o'clock at night.

W. C. Avery will also have a supply of MRS. STIPP'S THORACIC BALSAM on hand. m27dtf

Ancient Anglo-Saxon Marriage Ceremonies.

By the Anglo Saxons the bond of matrimony was held to be most sacred. No man could lawfully marry without first obtaining the consent of the woman's Mundbora, or guardian, who was father if living, and if not, some other near relation. If such consent was not obtained, the husband was liable to penalties, and he acquired no legal rights over either the wife or her goods. For this consent the lover always paid a mede or price, in the nature of a present, according to the rank of the lady. It was therefore advantageous to a father that the "spindle side," or female part of his family, to use Alfred's term, should out number the "spear-side," or male members thereof. The parties were solemnly contracted, and a friend of the bridegroom became surety for the woman's good treatment and maintenance. Her dowry was fixed; and all the relations of both parties within the third degree were invited to the marriage feast. Each one made some present to the couple, and the Mundbora gave them arms, furniture, cattle and money. This was called the Faderfrum, or fader's gift, and was all the fortune that the bridegroom received. On the day before the wedding, which generally took place within six or eight weeks from the time of the contract, the invited friends of the bridegroom went to his house, where they spent the day in feasting. On the next morning they went armed and on horseback to the house of the bride, under the conduct of the foremost man, to receive her, and conduct her to her husband. This martial show was both for compliment and to prevent a rescue by any former lover. The bride was led by a matron, called the brideswoman; followed by many young women, termed the bridesmaids, and attended by her Mundbora and other male relations. On her arrival she was received by the bridegroom, and solemnly betrothed by her guardian. The united companies then proceeded to the church, attended by musicians. No marriage was lawful without the presence of the Mundbora at the ceremony, and he gave the bride to the bridegroom, saying, "I give her to thee to be thy honor and thy wife; to keep the keys and share with thee in thy bed and goods." The parties received the nuptial benediction from the priest, sometimes under a vail or square piece of cloth, called the care cloth, held at each end by a man, to conceal the bride's blushes; but this was not used in cases where the bride was a widow. After the benediction both of the parties were crowned with flowers, which were kept in the church for the purpose. A ring was used at the marriage as well as at the betrothal. Some authors say that at the marriage of the Anglo-Saxons the Mundbora presented the bridegroom with one of the bride's shoes, as a token of the transfer of authority; and she was made to feel the change by a blow on her head given with the shoe. The husband was bound by oath to use his wife well, on failure of which she might leave him; but he was allowed to bestow a moderate castigation upon her. After the marriage ceremony all the company returned to the bridegroom's house, where was held the wedding feast. At night the bride was conducted to her chamber and put to bed by the women, and the bridegroom was in like manner attended by the men. The couple both being in bed, their healths were drunk in their presence by all the company. On the next morning, when the bridegroom rose, he gave his bride a morgengabe, or morning gift, which became her separate property, and was the ancient pin-money. All the company came to the chamber before the couple arose, to hear this gift declared, after which they feasted again, for several days, until the provisions were consumed, and then, having made presents to the husband, they departed. The wedding dresses of the bride, and three of her maidens, and of the bridegroom, and his attendants, were of a peculiar fashion and color, and might not be worn on any other occasion. These dresses were at first the perquisites of the musicians who attended the marriage, but in later times they were given to some church or abbey.—*The Wedding Day in all Ages and Countries.*

A REG'LAR BILED OWL.—One of the boys played an ugly trick upon a gentleman from the rural districts, in the United States Court room, the other day. The room was pretty full of folks of one sort and another—some of them principals and witnesses in cases on trial, and the rest were spectators of the process of dispensing United States justice and equity—and sitting room was at a premium and the market poorly supplied. Looking around for a place to sit down and rest his weary legs, the agricultural witness noticed that the register by which the room was heated was unoccupied, and threw himself upon it with a sigh of relief, having no idea as to what the thing was intended for. Seeing him seated thus, "one of the boys" in question (whose name we won't give, because we can't,) quietly went up and and turned the guage which regulates the temperature of the apparatus. Pretty soon our rural friend began to feel uncomfortably warm, and by the time another "pretty soon" or so had transpired, the perspiration began to pour down into his boots in great streams. Still he kept his seat. He felt excessively queer, but for the life of him he was unable to tell what was the cause of it. He began to grow a little scared. He found that unless there was a speedy step put to this state of feeling he would never get out of town a live man, but would be boxed up and sent home as a "demnition body." At last he beckoned to one of his neighbors, who was also a witness in the Court. "George," said he, solemnly, "sump'n's the matter with me as sure's you're born. I b'lieve I'm gwine to swet myself to death right here. The swet is bustin' out all over me."

"Why, what's the matter with you, Bill?" asked his friend, "you look as hot as if you'd jest crawled out of a bake oven. Maybe it's them oysters—do you feel anything like a cramp about your innards?"

"No," said Bill, respectfully, "I don't feel no cramp nowhere about me; I never felt better in my life than when I set down here, but I've been a swettin' and a swettin' till I'm as wet as a drowned rat."

Just then he placed his hands on the register for the first time, and springing to his feet he exclaimed, "Why, hello here, d——d if that pile of iron ain't as hot as thunder, and I've been a settin' on't till I've scorched a hole in my breeches big enough to crawl through. Jest to think that I was d——d fool enough to set there and nearly burn up without knowing what ailed me! George, let's go and get another drink of that ten cent whisky. D——d if I didn't think I was gwine up the spout like a regler biled owl; d——n if I didn't."

And casting a vindictive look upon the "pile of hot iron" upon which he came so near melting, he and his friend went out in search of a couple or so of cheap drinks.—*Louisville Journal.*

BIRD COURTSHIP.—I have seen a fine cock robin paying assiduous addresses to a female bird, as late as the middle of July, and I have no doubt that his intentions were honorable. I watched the pair for half an hour. The hen, I took it, was in the market for the second time that season, but the cock, from his bright, unfaded plumage, looked like a new arrival. The hen resented every advance of the male. In vain he strutted around her, and displayed his fine feathers; every now and then she would make at him in the most spiteful manner. He followed her to the ground, poured into her ear a fine, half-suppressed warble, offered her a worm, flew back to the tree again with a great spread of plumage, hopped around her on the branches, chirruped, chattered, flew gallantly at an intruder, and was back in an instant at her side. No use—she cut him short at every turn.

The *denouement* I cannot relate, as the artful bird, followed by her ardent suitor, soon flew away beyond my sight. It may not be rash to conclude, however, that she held out no longer than was prudent. On the whole, there seems to be a system of Women's Rights prevailing among the birds, which, contemplated from the standpoint of the male, is quite admirable. In almost all cases of joint interest, the female bird is the most active. She determines the site of the nest, and is usually the most absorbed in its construction. Generally, she is more vigilant in caring for the young, and manifests the most concern when danger threatens. Hour after hour I have seen the mother of a brood of blue grosbeaks pass from the nearest meadow to the tree that held her nest, with a cricket or grasshopper in her bill, while her better dressed half was singing serenely on a distant tree, or pursuing his pleasure amid the branches.—*Atlantic for June.*

An Ohio Coroner's jury has been setting on a suit of old clothes stuffed with straw. The verdict was "not guilty."

LOVE INTRIGUES IN EGYPT.—An Egyptian girl or woman, concealed behind her *shu-bak* (window) sees pass a man who pleases her fancy. She calls, and, as the head of the unknown is raised, a flower, a note, or a handkerchief is dropped at his feet. This is not yet a rendezvous, but an invitation to come again near the same place. At the moment the favored one leaves the spot, the door opens, and a eunuch or negress follows him. This servant is charged to know who he is, where he rests, what his name, and condition in life.

The day after, in passing by the same house, if a flower, or other token, again falls from the same window, the lover knows that the report of the servant is made, and that his suit is favorably received.

"Now," adds Mahmoud, (I translating into fairer English his odd expressions) "is the dangerous time. Sometimes at the *cafe*, sometimes in the street, you are met by an old woman, who tells you that such and such a man has a beautiful daughter, who wants to be married. She has the beauty of a princess, and all the charms that can tempt the imagination."

"I wish to see her!" says the lover.

"Impossible," replies the dame. "Gaze upon the beauty of a child of the faithful before marriage—Mohammed forbid!"

"I wish to see her," repeats the lover, unmoved; and he slips a piece of gold into the woman's hand.

"You shall behold the glory of her eyes," replies the woman, softened.

"No—more," repeats the lover, and another *backshish* is pressed on the woman.

"You shall behold her rosy mouth, filled with teeth beautiful as the pearls on the Sultana's neck."

"More!"

And, at the third gold piece, the woman leaves the lover, saying, "You are a prince, and I am your slave!"

From that moment the interview is determined on.

The best occasion is that of the mosque or the baths. In the shadows of the former, at a proper moment, the girl will remove her vail, even so far as to expose her neck and shoulders, that is if some jealous eunuch is far enough away. As to the bath—this is a thing more full of danger and coquetry. The master of the bath is nearly always in the intrigue. He has two *backshishes* to gain—one from the woman, and another from the lover. The eunuchs, or slaves, rest at the door of the bath. These immense halls have a cupola on high, pierced with a thousand little holes, each of which is supposed to be covered with glass; but the lover discovers that some are not thus closed, when he is led by the master to the roof of the building, where, if he be wise, he will be able to judge of the beauty of the woman he loves, as she rests in all the charming negligé of the bath toilet.—*"Sentimental Idler," in Appleton's Journal.*

RHODE ISLAND MILLIONAIRES.—The recent Sprague-Halstead speeches have been full of attacks upon the firm and families of Brown and Ives. To the atrocious crime of being rich and respectable, we suppose they must really plead guilty. But it may be urged, in extenuation, that to them the people of Rhode Island principally owe the existence and prosperity of Brown University, the Providence Athenæum, the Quaker College, the Butler Hospital, and the Rhode Island Hospital. To this last institution these families and their immediate connections have given upwards of $175,000. To the Quaker College, Obadiah Brown gave forty acres of land, and his son gave nearly all his fortune. The Butler Asylum has been helped by them nearly $50,000, and Brown University has received larger sums.

It is not only their money that they have given to the Commonwealth. The young millionaire, Thomas Poynton Ives, son-in-law to John Lothrop Motley, served through the war as a volunteer Lieutenant in the Navy, and died the year after, worn out by hard work. Robert Hale Ives Jr., was killed at Antietam, in a desperate charge upon a rebel battery. These two young patriots were the last of their name. Three Goddards, also members of the firm and family, served honorably in the army. Senator Sprague says a million is more cowardly than half a million. As he has more money than any Ives or Goddard, his opinion is entitled to weight.

CONSEQUENCES.—A man from the country invested five cents in the purchase of an orange, and preparatory to getting himself outside of it, threw the peel on the sidewalk. Soon after a young woman came along, slipped on the peel, and fell upon the walk, breaking her leg. This young woman was to have been married the next day, wasn't. The man who was to marry her had come from St. Paul, Minnesota, and was obliged to return on account of business, to await the recovery of the girl. On his way back he unfortunately took a train on the Erie Railroad, which ran off the track, and his shoulder blade was broken, forcing him to stop at Dunkirk for repairs. The Travelers' Insurance Company, in which he was insured, had to pay $250 in weekly installments before he recovered. On getting back to St. Paul, he found that his forced absence had upset a business arrangement which he had expected to complete, at a pecuniary loss to him of $5,000. Meantime the injured girl [had] a relapse, which so enfeebled her health that her marriage was delayed, which had a bad effect upon the young man, and he finally broke the engagement and married a widow in Minnesota with four small children. This so worked upon the mind of the girl that she is now in the insane hospital in Middletown. Her father, outraged by the conduct of the young man, brought a suit for breach of promise, and has just recovered $10,000.—*Hartford Courant.*

When an illustrious English author now dead, first journeyed to the United States, the story runs that he paid a visit of courtesy to the well known publishing firm in New York, who for a long series of years had been doing their best to conduce toward the enhancement of his celebrity, although scarcely to the replenishment of his purse, by punctually issuing reprints of his works in America, and giving him nothing for the copyright. The "taking" partner in the firm happened to be engaged when the illustrious author called; and while waiting for him there chanced to enter the office a young lady radiantly attired, and as pretty and graceful as American young ladies generally are, who asked for the "talking" partner under the affectionate designation of "papa."

"Ah!" quoth the illustrious author, "I see—the latest edition of the *Pirate's Daughter*, splendidly bound."

Your Mission.

If you cannot on the ocean
Sail among the swiftest fleet,
Rocking on the highest billows,
Laughing at the storm you meet,
You can stand among the sailors,
Anchored yet within the bay
You can lend a hand to help them
As they launch the boats away

If you are too weak to journey
Up the mountains, steep and high,
You can stand within the valley
While the multitudes go by;
You can chant in happy measures,
As they slowly pass along,
Though they may forget the singer,
They will not forget the song

If you have not gold or silver
Ever ready to command,
If you cannot toward the needy
Reach an ever open hand;
You can visit the afflicted,
O'er the erring you can weep;
You can be a true disciple,
Sitting at the Saviour's feet.

If you cannot in the conflict
Prove yourself a soldier too,
If, where fire and smoke are thickest,
There's no work for you to do,
When the battle-field is silent
You can go with silent tread;
You can bear away the wounded,
You can cover up the dead.

Do not, then, stand idly waiting
For some greater work to do,
Fortune is a lazy goddess,
She will never come to you;
Go and toil in any vineyard,
Do not fear to do and dare;
If you want a field of labor,
You can find it ANYWHERE

The Great River of the North.

Advices from Sitka, Alaska Territory, announce that on the 10th of May, the brig *Commodore*, Capt. Percival, sailed from that station, bound for the North and the Yukon river, on an exploring expedition. She carried up Captain Raymond, of the engineer corps, and Mr. Majors, astronomer, for the purpose of fixing the boundaries between our own and the British government; and several explorers and traders, who will establish posts on this great river of the north, and solve the problem of its resources and value. The brig also carried a small steamer, destined for navigation on the Yukon, which, if we can take English authority, is the fourth river in the world.

The young English traveller, Fredrick Whymper, who visited it in 1865–66, reports that a flat-bottomed, stern-wheel steamer could ascend this river for eighteen hundred miles; but that it is frozen solid two-thirds of the year. He found it for seventeen hundred miles, from bank to bank, one mile wide, and often spreading out into lagoons of four or five miles wide. The river does not get open until near June, when the warm season comes on very suddenly, and the vegetation grows wondrously fast.

This river runs almost parallel with the coast for several hundred miles, after coming westwardly from the interior, and at one portage, used by the Hudson's Bay Company in transporting their furs and supplies, is only eighty miles from the McKenzie river. There were several Russian trading posts, and one of the Hudson's Bay Company's on this river, which is the great fur-bearing region of the north.

If these statements are all true, we shall probably hear them from the report of this Yankee exploring party in due time, for Yankee enterprise will do more in two years than the Russians would in a life-time. We shall also have better proof that the purchase of Alaska was not a worthless venture, but one of the best investments ever made by Uncle Sam. —*Olympia Transcript.*

This sum, enormous as it seems, is totally eclipsed by the magnitude of the Interest which the Coast is losing for want of the Principal. Its yield in the East at 6 per cent., compounded annually for ten years, is $6,952,167 27; here at 12 per cent, for five years, and 10 per cent. for six, compounded monthly, $25,690,906 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1¼ per cent per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will *soon drain the State of all its cash. It to California, it* finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted, or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp St Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH,

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure, or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchial and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies $25 a week, or $100 for six weeks (Board, Room and treatment)

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies Hygienic Society the first Wednesday in each month

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

From Samuel Cassidy, Editor Journal & Argus.

PETALUMA, CALIFORNIA, Dec. 14, 1868.

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, *I sent to Portland, Me.,* for a box of the medicine, which I received through the mail on the 17th of November. A month has not [illegible] yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.
